Foreword

This publication provides selected schedules of frequently requested financial information. The information is compiled from audited financial statements sent to the Ministry in accordance with the *Local Government Act*, Municipal and Regional District Reporting Forms and other statements provided by municipal and regional district officials. All information has been reviewed and, where necessary, adapted to ensure easy comparison.

The *Municipal Statistics* consists of data provided to the ministry by local governments. The accuracy of the information is the responsibility of each local government. Please contact local governments if you have questions.

Grants and other financial assistance extended by the federal and provincial governments to local government appear in the appropriate schedules of the funds concerned (e.g., Grants for Capital Works in Schedules 5, 12 and 16; Unconditional Grants in Schedule 9; and Basic and Planning Grants in Schedule 33).

The Ministry relies on and appreciates the cooperation of local government officials and auditors in submitting financial and statistical information for this publication promptly. For 2001, acknowledgement for the earliest submission goes to the Village of Telkwa (Reporting Forms received February 26, 2002).

Changes to the 2001 Municipal Statistics

1. New Incorporations and Change of Municipal Classification:

   None for 2001.

2. The BC STATS 2001 Population Estimates used in this publication were provided in December 2001. The revised 2001 estimates include other revisions in the provincial population made by Statistics Canada.

3. The BC STATS population peer groups used in the charts on pages 189-205 have changed from previous years. Some municipalities with a population near the upper or lower limit of their peer group have been left in another population category for comparability.

4. New Borrowing Power (schedule 59, page 124) was changed by legislation which became effective for the 2000 reporting year. Please contact Local Government Services and Infrastructure at (250) 387-4060 or email lgstats@gems3.gov.bc.ca if you require more detail about the new borrowing power formula.

New Consolidated Financial Reporting Forms

Data for 2001 *Municipal Statistics* was collected with computer software called Local Government Data Entry (LGDE). The Local Government Services and Infrastructure branch began the LGDE project in 1997 to automate the collection of local government financial information.

For 2002, greatly summarized data will be collected using a new version of LGDE. The data collected will be consolidated in the format recommended by the Public Sector Accounting Board (PSAB). The new format will more easily match the audited annual financial statements of local governments. The new data collection format will mean changes in data presentation for the 2002 local government data. Some 2002 data items may not be directly comparable to items on 2001 reports.

We will be asking local governments to use the new 2002 LGDE software to enter the data, and submit their financial and statistical information electronically.

Supplementary Information Available

Municipal Statistics is produced using MS-Excel 2002. Excel files containing these and other schedules with information about municipalities and regional districts are available for further analysis by diskette, email attachment or from our web site. Unpublished schedules and further information about published data is available from:

[1] Census populations do not include adjustment for undercount and exclude people residing on Indian Reserves.

[2] Certified populations are based on Census populations but include people residing on Indian Reserves and include population within boundary extensions since the Census.

[3] BC STATS' Population Estimates include population within boundary extensions, as of July 1, 2001, and an estimate of net census undercount but exclude people residing on Indian reserves. Released December, 2001.

Notes [1] Tax rates for the Utilities property class do not include the 1% revenue tax paid by utilities (such as BC Hydro, Telus, BC Gas) in lieu of ad valorem general municipal revenue taxation on certain assets. For 2001, total general municipal taxes collected by variable rate taxation amounted to $37 million while the 1% revenue tax collected by utilities is estimated to be as much as $42 million.

Legend of Assessment Bases for Regional District Levy (See Column 2 above)

Reg Dist (G)	General assessment base levy - normal land and improvements tax levy
Reg Dist (G*)	General assessment base levy - * includes a component of tax levy on land only or improvements only
Reg Dist (H)	Hospital assessment base levy - normal land and improvements tax levy
Reg Dist (H*)	Hospital assessment base levy - * includes a component of tax levy on land only or improvements only
Reg Dist (*)	Mixed assessment base levy - part on hospital assessment base and part on general assessment base - * also includes a component of tax levy on land only or improvements only
Reg District	Mixed assessment base levy - part on hospital assessment base and part on general assessment base - normal land and improvement tax levy

52. Legend of Flat Taxes, Split Rates and Averaging for 2001

Municipality	Residential Tax Rate (General and Debt)	Residential Vacant Land	Residential Non-vacant Land/Other	Further Information
	$/1000	$/Parcel	$/Parcel	
Flat Taxes (Municipal F)				
Dawson Creek	7.37000	$100.00	$300.00	
Fort St. John	6.16020	$50.00	$50.00	
Kimberley	3.48790	$200.00	$486.00	(Including manufactured homes assessable and taxable under the Manufactured Home Tax Act)
Kitimat	(split rate)	.....	$334.00	
Powell River	3.80000	$82.00	$298.00	
Trail	3.91400	.....	$130.00	

Parcel Tax	**Residential**	**Strata Parcels**	**Boundary Extension Area**
Rossland (Transportation)	$539.46	$496.30	$215.78

Municipality	Residential Vacant Land	Residential Land With Improvements
Split Rates (Municipal S)		
Kitimat	5.25253	2.03911

Averaging

Vancouver — Tax Rates were adjusted in the assessment averaging process for residential and business/other classes.

Legend of 2001 Special Area Rates - Tax Rates Levied in Lieu of General Municipal Purposes Rates

Municipality	Special Rate	Residential	Utility	Unmanaged Forest Land	Major Industry	Light Industry	Business	Managed Forest Land	Recreation Non-profit	Farm
		$/1000	$/1000	$/1000	$/1000	$/1000	$/1000	$/1000	$/1000	$/1000

	Gen. With Fire	.....	42.07580	.....	35.93980	15.90040	.....	.....	.....	.....
Elkford (Elk Valley)	Tax Sharing	.....	.....	.....	47.50500	.....	.....	.....	.....	.....
Kelowna (Farm Improvemts)	Gen. Mun.	3.26480	.....	.....	.....	.....	.....	.....	.....	.....
Lillooet (Tax Area 2)	Gen. Mun.	1.53380	6.33460	6.13520	5.21490	5.21490	3.37440	.....	1.53380	1.53380
New Hazelton	Tax Sharing	.....	.....	.....	4.50000	3.70000	.....	.....	.....	.....
Parksville (Resort Area)	Gen. Mun.	5.16940	20.99540	12.92350	6.56740	6.56740	9.13700	12.92350	7.93720	5.09550
Sparwood (Elk Valley)	Tax Sharing	.....	.....	.....	47.50500	.....	.....	.....	.....	.....

Note: Where no special rate is indicated for a class, the normal general municipal purposes rate is used for that class.

Legend of 2001 Tax Sharing

"Tax Sharing" indicates there is a tax sharing agreement between neighbouring municipalities that involves sharing taxation imposed on certain areas (especially on major industry sites). Thus the actual tax revenue kept by the originating municipality will be less, and the revenue by the receiving municipality will be more than reflected by these tax rates.

[1] Includes other term indebtedness ranking as debenture debt.

[2] This publication does not include financial information for the "greater boards" which were incorporated under their own legislation predating the creation of regional districts under the Municipal Act. For comparative purposes the following table illustrates outstanding debt:

Greater Boards[3]	Outstanding Debt Dec 31, 2001
Greater Nanaimo Water District	6.685.815
Greater Vancouver Water District	308.114.845
Greater Vancouver Sewerage and Drainage District	539.681.577
Total Greater Boards	**854.481.837**

[3] The Greater Victoria Water District was dissolved on August 1, 1997 and its operations assumed by the Capital Regional District. However, for financial information purposes, it was not consolidated with the Capital Regional District until 1998.

Combined Schedules and Charts

Using Financial Indicators

Financial indicators assess local government financial condition. They describe solvency within the context of the expenditures and resources of the community. Local governments may use Combined Schedules and Charts to compare their financial results with others. Revenues and expenditures, debt, reserves and surpluses, and taxation indicators allow comparisons among local governments of similar size and services. Benchmarks of performance and financial conditions may be developed using the following combined schedules and charts. Time series may also be used to compare current with previous years' performance. Developing a model to evaluate financial condition may involve selecting 10 or more relevant indicators for your local government. Compare them with a selection of other local governments with similar demographics and services (see Schedule 10p-General Operating Expenditures, sorted by population). You may wish to use quartiles or deciles to evaluate your results. This discussion of financial indicators makes use of the presentation made by Bill Cox of BDO Dunwoody entitled "Financial Indicators" at the 1995 Local Government Accounting and Financial Reporting Seminar.

Revenues

Own source revenues, grant revenues, and tax revenues as a proportion of total revenue shows the importance of own source revenue in relation to grants and taxation (see pp. 174-179, 197-205, Schedule 9p, Charts). A profile of the community tax base (such as the proportion of residential and non-residential taxation) may help you evaluate the ability of taxes to service debt (see pp. 138-161, Schedule 61). Municipal taxes per capita indicates the relative size of tax loads among communities (see pp. 138-161, Schedule 61).

Expenditures

Types of general operating expenditures (e.g., recreation) as a proportion of total operating expenditures can be relevant in selecting peer groups of local governments (see pp. 180-185, Schedule 10p and pp. 189-196, Charts). Expenditures per capita in general, sewer, water, and other utilities could be used to compare your community with similar sized communities in service provision (see pp. 170-173, Schedules 66 & 67). Population, area, and density (see pp.4-7, Schedule 2) plus kilometres of sewer, water main, and roads (see pp. 8-11, Schedule 3) can provide rough indicators of the extent of these services and their costs in relation to geography and settlement patterns.

Debt and Capital Assets

Debenture debt per capita compared with peers allows a rough ranking of communities by debt size (see pp. 166-169, Schedules 64 & 65). Outstanding debt as related to relative assessment determines borrowing power (see pp.124-127, Schedule 59). Debt charges as a proportion of total operating revenue shows the current cost of supporting debt (see pp. 166-169, Schedules 64 & 65).

Reserves and Surpluses

Size of surplus and reserve account balances and reserve fund balances shown as a proportion of annual operating expenditures shows the relative size of accumulated surplus in terms of yearly operations (see pp. 162-165, Schedules 62 & 63). Cash and investments as a proportion of accumulated reserves and surpluses shows their liquidity.

Further Indicators to Consider

Local governments may use their own data, collect data from other local governments, or contact Statistics Canada or BC STATS for socio-economic data. **Demographic** indicators include distribution of age groups, household sizes, and population growth rates which provide information about the need for services. Personal taxation income totals and average incomes are measures of earning potential in the community. Dependence on unemployment insurance and income assistance and the type of labour force in a community provides profiles of employment and tax base. Residential housing starts, vacancy rates, and building permits reflect growth rates. **Municipal purposes taxation** for an average single family residential home compared with local average family income is a per household gauge of the size of municipal taxes. The number of municipal employees in relation to the type and size of services offered may be used to compare with other municipalities. **Liquidity** indicators include the calculation of working capital. Taxes receivable as a proportion of taxes levied shows the size of taxes outstanding (Schedule 53, unpublished) and is also a factor in liquidity. **Maintenance costs by type of infrastructure** such as annual road repair or water pipe repair costs per kilometre are rough indicators of age and condition of tangible assets. This may be relevant to the timing of and need for capital expenditures. Capital expenditures from all funds as a proportion of total expenditures shows current capital replacement and new infrastructure.

Key to Flat Taxes and Split Rates (6 Municipalities)

Flat Taxes	**Bold**	Flat taxes are calculated by multiplying flat tax times number of aplicable non-exempt residential properties on the Authenticated roll as indicated by the municipality
Split Rates	*Italics*	Split rates are calculated by multiplying the tax rate for land and the tax rate for improvements times the applicable residential assessments for land or improvements on the Authenticated Roll Net Taxable Values for General Municipal Purposes from BC Ass
Both Flat and Split	***Bold Italics***	Only the District of Kitimat has both a Flat Tax and Split Rates

Legend

Please note that Assessments and Tax Rates are provided by other agencies such as B.C. Assessment Authority and local governments and the resulting taxes shown on this schedule are arithmetic estimates only for convenience in analysis. Taxes and proportions of taxes by class should also be regarded as estimates since assessment roll revisions, local area taxation and other provisions can affect total municipal taxation and the proportions by class in a particular municipality (see items 7, 8, and 9 below).

Definition of Report Variables

1. Municipalities are listed in alphabetic order with column 2 identifying (C)ity, (D)istrict, (T)own, or (V)illage. Column 3 identifies the Regional District where each municipality is located (see the RD Key on the next page which identifies Regional Districts by numbers from 501-531). On request, the report may be sorted by Regional District, BC STATS Population Estimates, or Municipal Taxes Per Capita.

2. Populations in column 4 are from the July 1, 2001 BC STATS Population Estimates (based on Statistics Canada 1996 Census populations which includes an estimate of net census undercount).

3. Authenticated Roll Taxable Values in column 6 are for nine classes of property from the B.C. Assessment March 31, 2001 Roll. Authenticated roll assessments may be slightly different than the revised roll used for the May 15 rate setting by municipalities. Therefore, actual General Municipal Purposes tax revenue may be slightly different in budgets and financial statements for the municipalities affected.

4. Total Municipal Variable Rate Taxes (column 9) are calculated by multiplying Municipal Purposes Tax Rates (column 7) by General Taxable Values (column 6) to obtain tax amounts only for municipal purposes. Taxation for Regional District services, Hospital, School and Other purposes is not included in Schedule 61. Taxes for a "municipal service" provided on a Regional District basis (e.g. regional fire protection, regional recreation centres) are not shown either. In other words, the "package of services" and what falls under the Municipal Purposes Tax Rates (column 7) may differ, resulting in differing costs and thus differing tax amounts. In addition, the service level can differ among municipalities, resulting in differing costs and thus differing municipal tax amounts.

5. Municipalities with split rates and flat taxes for 2001 require adjustments shown in column 10. The residential class appears in bold for flat taxes and italics for split rates for those municipalities. Flat Taxes and Split Rate Taxes above was used to total the actual Total Municipal Taxes (column 11) for those municipalities using these tools. Flat Taxes (column 10) were estimated by multiplying the flat tax by the approximate number of affected residential properties. Split Rate Taxes (column 10) for residential properties were estimated by multiplying the land rate by land general taxable values, added to the product of the improvement rate multiplied by general taxable values for improvements. There are only six municipalities using flat taxes and only the District of Kitimat also uses split rates for 2001. Municipalities collecting residential property taxes with a flat tax consequently have lower residential variable tax rates for municipal purposes. Tax Class Multiples (col 6) for property classes 2-9 are often greatly increased as a result.

6. The City of Vancouver adjusted its assessments to those shown here in the assessment averaging process for residential and business/other classes.

7. Specified area taxation (i.e. applicable only to a limited geographic area of a municipality) is not included in Schedule 61. It may, however, form a substantial additional amount of taxation in some cases. If the specified area is equal to the majority of the area of a municipality and the tax rate for that purpose appears in the annual tax rates bylaw, then that taxation amount may be included in this schedule.

8. Geographic tax limitations often result from a major boundary expansion when the tax rates applying in that new area could be less than the general municipal rate due to a cap imposed on the general municipal purpose rate (i.e. when a major industrial site is encompassed) or a phase-in to the general rate over several years (e.g. farm class or urban/rural separate rates). The authority for this differential is set out in the Supplementary Letters Patent authorizing the municipal boundary change. This feature is not reflected in this schedule, therefore some municipal figures may be overstated.

9. Certain municipalities may have an agreement with neighbouring municipalities to share taxation imposed on certain areas (especially on major industry sites). Thus the actual tax revenue kept by the originating municipality will be less, and the revenue by the receiving municipality will be more than reflected in this schedule.

10. Schedule 61 does not reflect frontage or parcel taxes for local improvements, enterprises and utilities (sewer, water), or user rates (which may be a substitute revenue source for some services such as garbage collection that may be recovered by other municipalities in whole or part as a component of the general tax levy). The City of Rossland, does however have a transportation parcel tax shown on this schedule since it forms a substantial portion of municipal purposes taxation.

11. Variable rate taxes calculated for the Utilities property class do not include the 1% revenue tax paid by utilities (such as BC Hydro, Telus, BC Gas) in lieu of ad valorem general municipal revenue taxation on certain assets. For 2001, total general municipal taxes collected by variable rate taxation amounted to $37 million while the 1% revenue tax collected from Utilities is estimated to be as much as $42 million.

62. Municipal Accumulated Surpluses, Reserve Accounts and Reserve Fund Balances as at December 31, 2001

[1] Total General Fund Surplus and Reserve Accounts (Col 7) = Sch 8, Col 20 + Cols 17, 18, 19

[2] Total Utilities Funds Surplus and Reserve Accounts (Col 10) = Sch 13, Cols 19, 18 + Sch 17, Cols 19, 16 + Sch 21, Cols 19, 16

[3] Total Statutory Reserve Fund Balances (Col 14) = Sch 23, Cols 13, 12, 11

[4] The value Vancouver reported in General Fund Reserve Accounts (col 6) was mostly the Property Endowment Fund. This value is reported close to the FEV value if the properties were recorded at cost, which is now comparable with other cities. See Schedule 8, Footnote 1 on page 34 for details.

Legend

This schedule shows the accumulated surplus from municipal operations. Reserves for future expenditures or reserve accounts are one method of appropriating those surpluses for particular purposes. Accumulated surplus plus appropriated surplus in reserve accounts are combined to provide accumulated operating surplus in Column 11. Balances in statutory reserve funds are included in this schedule in Column 14 to provide information about capital reserve funds that municipalities have set aside by bylaw. These funds are appropriated for particular capital purposes as described under the *Local Government Act* (except s.499 special reserve funds). Total Surpluses, Reserve Accounts and Reserve Fund Balances in Column 15 sums Columns 7, 10 and 14. Cash and Investments from all operating funds in Column 16 (Sch 7, Cols 2, 13 + Sch 13, Col 2, 5 + Sch 17, Cols 2, 5 + Sch 21, Cols 2, 5) and reserve funds in Column 17 (Sch 23, Cols 2, 5) are there to provide a comparison with the accumulated operating surpluses and reserve fund balances. Please note that Columns 16 and 17 do not reflect associated payables and receivables.

Total Operating Funds Surplus and Reserve Accounts (Col 11) and Total Statutory Reserve Fund Balances (Col 14) are graphed in Figure 2 (see pp. 189-196) as a proportion of Net Operating Expenditure (Sch 66, Col 14). Municipalities were sorted in population order and seven peer groups selected to display the results.

[3] Total Statutory Reserve Fund Balances (Col 12) = Sch 47, Col 12 (DCCs), Col 11 (Feasibility), Col 13 (Other).

Legend

This schedule shows the accumulated surplus from regional district operations. Reserves for future expenditures or reserve accounts are one method of appropriating those surpluses for particular purposes. Accumulated surplus plus appropriated surplus in reserve accounts are combined to provide accumulated operating surplus in Column 9 (which sums Columns 4 + 6 + 7). Balances in statutory reserve funds are included in Column 12 (which sums Columns 10 + 11) to provide information about capital reserve funds that regional districts have set aside by bylaw. These funds are appropriated for particular capital purposes as described under the *Local Government Act* (except s 826 special reserve funds). Total Surpluses, Reserve Accounts and Reserve Fund Balances in Column 13 sums Columns 5, 8 and 12.

Cash and Investments from all operating funds in Column 14 (Sch 32, Cols 2, 6 + Sch 37, Cols 2, 5 + Sch 41, Cols 2, 5 + Sch 45, Cols 2, 5) and reserve funds in Column 15 (Sch 47, Cols 2, 5) are there to provide a comparison with the accumulated operating surpluses and reserve fund balances. Please note that Columns 14 and 15 do not reflect associated payables and receivables.

64. Municipal Capital Tangible Assets and Related Debenture Debt for All Capital Funds as at December 31, 2001

Municipality (1)	Type (2)	RDI# (3)	July 1, 2001 BC STATS Population Estimates (Dec. 2001 Release) (4)	Capital Tangible Assets and Related Debenture Debt Outstanding (excludes Temporary Liabilities and Other Long-term Debt)								Total Capital Assets and Debenture Debt				Debenture Debt Charges For All Operating Funds		
				General Fund Tangible Assets (5)	General Fund Debenture Debt (6)	Sewer Fund Tangible Assets (7)	Sewer Fund Debenture Debt (8)	Water Fund Tangible Assets (9)	Water Fund Debenture Debt (10)	Other Utilities Tangible Assets (11)	Other Utilities Debenture Debt (12)	Total Tangible Assets (13)	Total Debenture Debt (14)	Total Assets Per Capita (15)	Total Debenture Debt Per Capita (16)	Total Debenture Debt Charges[1] (17)	Debt Charges as % of Municipal Taxes[2] (18)	Debt Charges as % of Total Net Operating Revenue[3] (19)

[1] Total Debenture Debt Charges (Col 17) includes interest on Debenture and Other Long-term Debt, Principal Installments or Sinking Fund Reqs, and Other Debt Charges less the related portion of Sewer and Water Facilities Assistance Grants. Col 17 = Sch 10, Cols 16, 17, 18 + Sch 14, Cols 17, 18, 19 minus portion of Col. 8 Fac. Grants + Sch 18, Cols 18, 19, 20 minus portion of Col 8 Fac. Grants + Sch 22, Cols 18, 19, 20. Debt charges exclude interest on Temporary Borrowing.

[2] Municipal Taxes includes municipal purpose variable rate taxes for nine property classes, special assessments such as sewer/water frontage and parcel taxes or specified area levies, and business/other taxes. It excludes the regional district levy. Municipal Taxes = Sch 9, Col 6 minus Sch 10, portion of Col 24 Regional District Taxes.

[3] Total Net Operating Revenue includes total operating revenue less taxes collected for other govts and utilities taxes and funding, and less Sewer and Water Facilities Assistance Grants provided by the Ministry for debt purposes Sch 66, Col 9. Total Net Operating Revenue = Sch 9, Col 25 minus Sch 10, portion of Col 22 Transfer to Utility Operating Funds minus Sch 10, portion of Col 24 Transfer to Regional District plus Sch 14, Col 11 minus portion of Col 8 Fac. Grants plus Sch 18, Col 11 minus portion of Col 8 Fac. Grants + Sch 22, Col 11.

[4] New Borrowing Power (changed for 2000, see Local Government Act s.334) =20% tangible capital assets + 20% of converted value of land and improvements averaged over 3 years - liabilities (liabilities exclude prescribed liabilities and revenue anticipation borrowing but include operating leases>30,000, loan guarantees, and operating agreements).

Legend

This schedule shows capital tangible assets and related debenture debt from all capital funds in each municipality. Total Tangible Assets (Col 13) sums tangible assets for each capital fund in Columns 5 + 7 + 9 + 11 and is equal to tangible assets on capital balance sheets (Sch 4, Col 7 + Sch 11, Col 7 + Sch 15, Col 7 + Sch 19, Col 7). Debenture debt includes authorized debt that is issued through Municipal Finance Authority, by the regional district, or by the municipality (including short-term capital borrowing). Total Debenture Debt (Col 14) sums Columns 6 + 8 + 10 + 12 and is equal to Total Debenture Debt Outstanding in Schedule 55, Column 12 (taken from capital balance sheets Sch 4, Cols 16, 17, 18 + Sch 11, Cols 15, 16, 17 + Sch 15, Cols 15, 16, 17 + Sch 19, Cols 15, 16, 17). Tangible assets and debenture debt are shown adjacent to each other to provide the option of comparing the size of debt relative to tangible assets among municipalities.

Total Debenture Debt Charges (Col 17) are shown as a proportion of municipal taxes in Column 18 and as a proportion of total net operating revenue in Column 19 to gauge how much of current year tax revenue and total net revenue is used for debenture debt charges. Debt Charges as % of Total Net Operating Revenue (Col 19) are not comparable to 1992 or 1993 results since total revenue now excludes utilities taxes and funding and the regional district levy. Total Net Revenue (used in Col 19) also excludes Sewer and Water Facilities Assistance Grants (Schs 14, 18, Col 8) provided by the Ministry for debt purposes. Total Debenture Debt Charges (Col 17) also excludes the related municipal debt charges covered by Sewer and Water Facilities Assistance Grants (Schs 14, 18, portions of Col 8).

Total Debenture Debt Charges are graphed in Figure 3 (see pp. 190-196) as a proportion of Total Net Operating Revenue (Sch 66, Col 9 minus Facilities Grants). Municipalities were sorted in population order and seven peer groups were selected to display the results.

[1] Total Debenture Debt Charges (Col 15) includes interest on Debenture and Other Long-term Debt, Principal Installments or Sinking Fund Reqs. and Other Debt Charges less the related portion of Sewer and Water Facilities Assistance Grants (Col 15 = Sch 34: Cols 9, 11, 13 plus Sch 38: Cols 17, 18, 19 minus portion of Col 8 Facilities Grants + Sch 42: Cols 18, 19, 20 minus portion of Col 8 Facilities Grants + Sch 46: Cols 18, 19, 20).

[2] Total Net Operating Revenue (Col 16) is total operating revenue less members' debt payments and utilities taxes/funding, less previous surplus/reserves, and less Sewer and Water Facilities Assistance Grants provided for debt purposes (Col 16 = Sch 33: Col 15 minus Sch 34: Cols 10, 12, 14 and minus Sch 34: portion of Col 18 Transfers to Utilities + Sch 38: Col 11 minus portion of Col 8 Facilities Grants + Sch 42: Col 11 minus portion of Col 8 + Sch 46: Col 11).

[3] The Greater Victoria Water District was dissolved on April 1, 1997 and its operations assumed by the Capital Regional District.

Legend

This schedule shows capital tangible assets and related debenture debt from all capital funds in each regional district. Total Tangible Assets (Col 11) sums tangible assets for each capital fund in Columns 3 + 5 + 7 + 9 and is equal to tangible assets on capital balance sheets (Sch 29, Col 7 + Sch 35, Col 7 + Sch 39, Col 7 + Sch 43, Col 7).

Regional District debenture debt includes authorized debt issued by the end of the year but does not include members' debt (issued for municipalities). Debenture debt does include debt issued for regional services in which municipalities participate. Debenture debt may include debt issued by the regional district (including short-term capital borrowing) and debt issued through Municipal Finance Authority. Total Debenture Debt (Col 12) sums debt for each capital fund in Columns 4 + 6 + 8 + 10 and is equal to Total Debenture Debt Outstanding in Schedule 56, Column 4.

Total Debenture Debt Charges (Col 15) are shown as a proportion of Total Net Operating Revenue (Col 16) in Column 17 to gauge how much of total net revenue is used for debenture debt charges. Total Debenture Debt Charges (Col 15) is less the related debt charges covered by the Sewer and Water Facilities Assistance Grants (Schs 38, 42, portion of Col 8) provided by the Ministry for debt purposes. Total Net Operating Revenue (Col 16) also excludes the the amount of Sewer and Water Facilities Assistance Grants.

66. Municipal Net Operating Revenue and Expenditures for the Year 2001

* Net General Operating Revenue (Col 5) includes general operating revenue less taxes collected for other govts, less transfers to sewer, water, other utilities operating funds parcel, frontage, other taxes plus general funding. Col 5 = Sch 9, Col 30 minus Cols 27, 26 minus Sch 10, portion of Col 22 Transfer to Utilities. Transfers of utility taxes and general funding of utilities are subtracted since they are already shown in utility revenue Cols 6, 7, 8.

* Total Net Operating Revenue (Col 9) includes general operating revenue less taxes collected for other govts, less transfers to utilities operating funds of utilities taxes and funding, plus sewer, water, other operating revenue. Col 9 = Sch 9, Col 30 minus Cols 27, 26 minus Sch 10, portion of Col 22 Transfers to Utilities + Sch 14, Col 11 + Sch 18, Col 11 + Sch 22, Col 11.

* Total Net Operating Expenditures (Col 14), includes general operating expenditures less surplus and reserve accounts, less transfers of taxes levied for other govts, and less transfers to utility operating funds plus sewer operating expenditures less surplus and reserve accounts, plus water operating expenditures less surplus and reserve accounts, plus other utility operating expenditures less surplus and reserve accounts. Col 14 = Sch 10, Col 26 minus Col 19, portion of Col 22 Transfers to Utilities + Sch 14, Col 25 minus Col 24, portion of Col 21 Reserve Accts + Sch 18, Col 26 minus Col 25, portion of Col 22 + Sch 22, Col 28 minus Col 25, portion of Col 22.

Legend

Schedule 66 has been slightly changed from the 1992 *Municipal Statistics* by subtracting transfers to utility operating funds from Total Net Operating Revenue (Col 9) and Total Net Operating Expenditures (Col 14). If you need to compare Schedule 66 (or Sch 64, Col 19) with 1992 results, please contact Municipal Financial Services for revised 1992 schedules.

Total Net Operating Revenue (Col 9) sums operating funds revenue from Columns 5 + 6 + 7 + 8. Total revenue subtracts taxes collected for other governments and sewer, water and other utility taxes plus any funding of utilities by general operating. Total Net Operating Revenue may be used to compare the size of total debt charges or total taxes.

Total Net Operating Expenditures (Col 14) sums operating expenditures from Columns 10 + 11 + 12 + 13. Total expenditure subtracts surpluses and transfers to reserve accounts, transfers of taxes collected for other governments, and transfers to sewer, water, and other utilities of parcel, frontage or other taxes plus general funding of utilities. The size of total operating expenditures and fund expenditures (Cols 10, 11, 12, 13) may be considered in selecting peers. Consult Schedule 10p to select municipalities in a population range and with the appropriate size and type of general operating expenditures. Factors such as density (e.g., Districts versus Cities), settlement patterns, and service preferences affect municipal expenditures. Operating Expenditures Per Capita (Col 15) expresses operating expenditures as divided by BC STATS populations so different sizes of municipalities may be compared.

[1] Net General Operating Revenue (Col 3) excludes transfers from previous surplus or reserve accounts, members debt payments, and transfers to sewer, water, other utilities frontage, parcel, other taxes plus general funding.
Col 3 = Sch 33, Col 15 minus Col 13 minus portion of Col 14 Reserve Accounts minus Sch 34, Cols 10 + 12 + 14 Members Debt minus Sch 34, portion of Col 18 Transfer to Utilities.

[2] Total Net Operating Revenue (Col 7) includes general operating revenue less prev. surplus/reserve accts, members debt, and transfers to utilities, plus utilities operating expenditures less transfers to surplus/reserve accts.
Col 7 = Sch 33, Col 15 minus Col 13 minus portion of Col 14 Reserve Accounts minus Sch 34, Cols 10 + 12 + 14 Members Debt) minus Sch 34, portion of Col 18 Transfer to Utilities
+ Sch 38, Col 11, minus portion of Col 10 Previous Surplus + Reserve Accounts
+ Sch 42, Col 11 minus portion of Col 10 Previous Surplus + Reserve Accounts
+ Sch 46, Col 11 minus portion of Col 10 Previous Surplus + Reserve Accounts.

[3] Total Net Operating Expenditures (Col 12) includes general operating expenditures less transfers to surplus and reserve accounts, members debt, and transfers to utilities
plus sewer, water, and other utilities operating expenditures less transfers to surplus and reserve accounts.
Col 12 = Sch 34, Col 21 minus Col 10 minus Col 12 minus Col 14 minus Col 15 minus portion of Col 18 Transfers to Utilities
+ Sch 38, Col 25 minus Col 24 minus portion of Col 23 Reserve Accounts
+ Sch 42, Col 26 minus Col 25 minus portion of Col 24 Reserve Accounts
+ Sch 46, Col 26 minus Col 25 minus portion of Col 24 Reserve Accounts.

[4] The Greater Victoria Water District was dissolved on August 1, 1997 and its operations assumed by the Capital Regional District.

Legend

Total Net Operating Revenue (Col 7) above is not equivalent to Municipal Total Net Operating Revenue (Sch 66, Col 9) since transfers from previous surplus and reserve accounts are excluded from regional district operating revenue. Excluding previous surplus and reserve accounts from net operating revenue should allow for better comparability of current revenue since regional districts often bring all of previous years' surplus into current revenue. Total Net Operating Revenue (Col 7) is also not equal to Total Net Operating Revenue (Sch 65,Col 16) which excludes Facilities Assistance Grants to be comparable with total debenture debt charges (Sch 65, Col 15) which also excludes Facilities Assistance Grants. Total Net Operating Revenue (Col 7) sums operating funds revenue from Columns 3 + 4 + 5 + 6. Total revenue excludes taxes collected for other governments and sewer, water and other utility taxes plus any funding of utilities by general operating. Total Net Operating Revenue may be used to compare the size of total debt charges or total taxes.

Total Net Operating Expenditures (Col 12) sums operating expenditures from Columns 8 + 9 + 10 + 11. Total expenditure excludes surpluses and transfers to reserve accounts, members' debt payments and transfers to sewer, water, and other utilities of parcel, frontage or other taxes plus funding of utility operating funds. The size of total operating expenditures and fund expenditures (Cols 8, 9, 10, 11) may be considered in selecting peers. Consult Schedule 34 to select regional districts with the appropriate size and type of general operating expenditures. Factors such as population, settlement patterns, level of urbanization, and service preferences of both electoral areas and municipalities affect regional district expenditures. Operating Expenditures Per Capita (Col 13) expresses operating expenditures as divided by BC STATS populations (electoral areas and municipal) so that different sizes of regional districts may be compared.

Legend

General Operating Revenue (Sch 9p) was created by adding municipal type (Col 2), RD# (Col 3, see Key below), and BC STATS Population Estimates (Col 4) to Schedule 9 (pp. 36-43). Collections for Other Governments (School Taxes, Other Taxes in Cols 26, 27) were removed from Schedule 9. Municipalities were sorted by population to provide general operating revenue in order of population size. General operating revenues were totaled into seven categories (see p. 197) and used to create Figure 4. *Sources of General Operating Revenue for 2001* (pp. 198-205) shown in seven peer groups. Schedule 9p with Figure 4 may be used to select municipalities of comparable population (Col 4), type (Col 2), and tax revenue (Col 9). Proportions of revenue from taxation, own sources, grants, and previous years' surplus may be evaluated in comparison with other municipalities of similar population and general operating revenue.

Legend

General Operating Expenditures (Sch 10p) was created by adding municipal type (Col 2), RD# (Col 3, see Key below), and BC STATS population estimates (Col 4) to Schedule 10 (pp. 44-51). Transmission of Taxes Levied for Other Governments (School-Residential and Non-residential, Referendum, Other in Cols 27, 28, 29) were removed from Schedule 10. Municipalities were sorted by population to provide general operating expenditures in population order. General operating expenditures were totaled into seven categories (see p. 197) and used to create Figure 5, *Types of General Operating Expenditure for 2001* (pp. 198-205) shown in seven peer groups. Schedule 9p with Figure 5 may be used to select municipalities of comparable population (Col 4), type (Col 2), and general operating expenditure (Col 31). The relative size of operating expenditures may be evaluated for general gov't (Cols 5,6,7), policing (Col 8), fire (Col 9), transportation (Col 11), environmental and public health (Col 12, 13, 14, 15), environmental development (Col 16), recreation and culture (Col 17), debt charges (Cols 18, 19, 20, 21), and transfers to own funds and other governments (Cols 22, 23, 24, 25, 26, 27, 28).

Legend for B.C. Municipal Purposes Taxes by Property Class 1996-2002

This chart is developed using estimates of individual municipal purposes taxes totalled by property class for all B.C. municipalities. Schedule 61 (pp. 138-160) presents the method and results of these estimates for each municipality. Please note that Assessments and Tax Rates are provided by other agencies such as B.C. Assessment and Local Governments and the resulting taxes are estimates only for convenience in analysis. Taxes and proportions of taxes by class should be regarded as estimates since Assessment Roll revisions and Local Area Taxation can affect total taxation and the proportions by class in a particular municipality.

Definition of Variables

1. Authenticated Roll Taxable Values for nine classes of property are from B.C. Assessment March 31 Roll. Authenticated roll assessments may be slightly different than the revised roll used for the May 15 rate setting by municipalities. Actual General Municipal Purposes tax revenue may be slightly different in budgets and financial statements for municipalities with roll revisions.

2. Total Municipal Variable Rate Taxes (Sch 61, Col 9) are calculated by multiplying Municipal Purposes Tax Rates (Sch 61, Col 7) by General Taxable Values (Sch 61, Col 6) to obtain a tax amount only for municipal purposes. Taxation for Regional District services, Hospital, School and Other purposes is not included in Figure 1. Taxes for a "municipal service" provided on a Regional District basis (e.g. regional fire protection, regional recreation centres) are not shown either. In other words, the "package of services" and that which falls under the Municipal Purposes Tax Rate (Sch 61, Col 7) may differ, resulting in differing costs and thus differing tax amounts. In addition, municipalities have different levels of service resulting in differing costs and differing municipal tax amounts.

3. Municipalities with split rates and flat taxes have calculated amounts for flat and split rate taxes included in the Total Municipal Taxes-Residential class (Sch 61, Col 11, p 138).

4. Specified area taxation (i.e. applicable only to a limited geographic area of a municipality) is not included in Figure 1, *B.C. Municipal Purposes Taxes by Property Class 1996-2002*. It may, however, form a substantial additional amount of taxation in some cases. If the specified area is equal to the majority of the area of a municipality and the tax rate for that purpose appears in the annual tax rates bylaw, then that taxation amount may be included in this schedule.

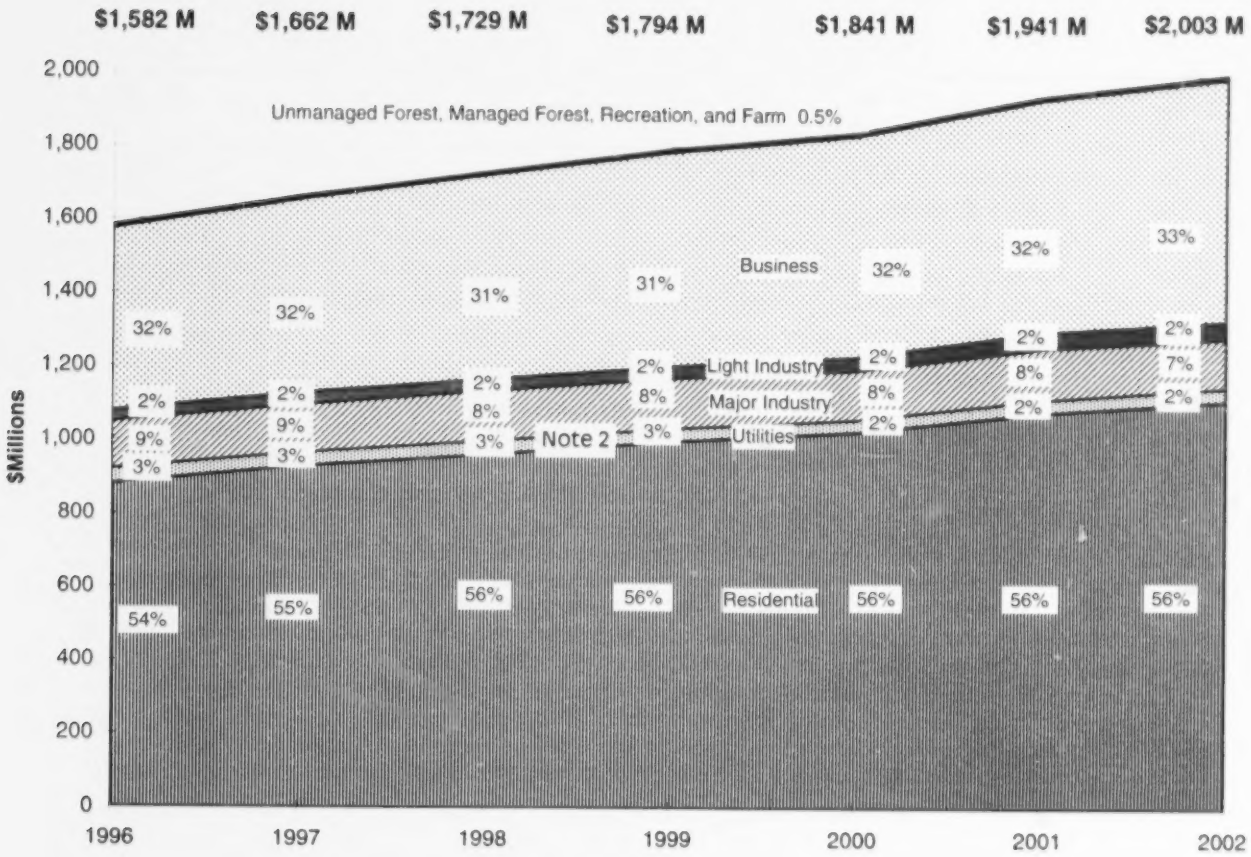
5. Geographic tax limitations often result from a major boundary expansion when the tax rates applying in that new area could be less than the general municipal rate due to a cap imposed on the general municipal purpose rate (i.e. when a major industrial site is encompassed) or a phase-in to the general rate over several years (e.g. farm class or urban/rural separate rates). The authority for this differential is set out in the Supplementary Letters Patent authorizing the municipal boundary change. This feature is not reflected in this schedule, therefore some municipal figures may be overstated.

6. Figure 1 does not reflect frontage or parcel taxes for local improvements, enterprises and utilities (sewer, water), or user rates (which may be a substitute revenue source for some services such as garbage collection that may be recovered by other municipalities in whole or part as a component of the general tax levy).

7. Figure 1 also illustrates subsequent year taxation (2002) which has been calculated on the same basis.

8. Variable rate taxes calculated for the Utilities property class do not include the 1% revenue tax paid by utilities (such as BC Hydro, Telus, BC Gas, Cable Vision) in lieu of ad valorem general municipal revenue taxation on certain assets. For 2001, total general municipal taxes collected by variable rate taxation amounted to $37 million while the 1% revenue tax collected from utilities is estimated to be as much as a further $42 million.

Figure 1 B.C. Municipal Purposes Taxes[1] by Property Class 1996-2002



Note 1 Estimated Municipal Purposes Property Taxes

Municipal Purposes Taxes are estimated using authenticated roll general assessments multiplied by municipal purposes tax rates, then summing by property class.

Note 2 Utilities Property Class

Variable rate taxes calculated for the Utilities property class do not include the 1% revenue tax paid by utilities (such as BC Hydro, Telus, BC Gas) in lieu of ad valorem general municipal revenue taxation on certain assets. For 2001, total general municipal taxes collected by variable rate taxation amounted to $37 million while the 1% revenue tax collected from Utilities is estimated to be as much as $42 million.

This Page Left Blank

Figure 2 Accumulated Surpluses, Reserves & Reserve Funds as a % of 2001 Net Operating Funds Expenditure

Accumulated surpluses from municipal operations are presented as a proportion of current expenditure in the Figure 2 series of charts following (pp. 190-196). The intent of presenting surpluses graphically is to provide a method of comparing the relative size of individual municipal surpluses. The height of the vertical bars gives an impression of surpluses, reserve accounts, and reserve funds in relation to current operating funds expenditure. Reserve accounts (reserves for future expenditures) are one method of appropriating surpluses. Accumulated surplus plus appropriated surplus in reserve accounts for all operating funds are shown as the lighter gray on the chart bars. Balances in statutory reserve funds represent another method of setting aside reserves by bylaw so they may only be appropriated for particular capital expenditures (or other authorized purposes). Statutory reserve fund balances are shown as the darker gray on the chart bars. The charts following are graphed from Municipal Accumulated Surpluses and Reserves (Sch 62, Cols 11, 14 on pages 162-164) and shown as proportions of Total Net Operating Expenditures (Sch 66, Col 14 on pages 170-172).

Chart Variable	Explanation	Sch Ref
Accumulated Surpluses	accumulated surplus - all operating funds balance sheets	Sch 62,Cols 5,8
Reserves (Reserve Acc'ts)	reserves for future expenditures - all operating funds balance sheets	Sch 62,Cols 6,9
Surplus & Reserves	accumulated surpluses and reserve accounts - all operating funds	Sch 62,Col 11
Reserve Funds	equity of all statutory reserve funds - reserve funds balance sheet	Sch 62,Col 14
Net Operating Funds Expenditure	all operating funds expenditure less transfers to surplus, reserve accounts, utilities from general, transfer of taxes levied for other gov'ts	Sch 66,Col 14
BC STATS Population	BC STATS population estimates issued Dec, 2001 (see black triangles)	Sch 62,Col 4
Peer Groups	municipalities were sorted by population into 7 peer groups	Schs 9p,10p

Figure 3 Debt Charges All Operating Funds as a % of 2001 Net Operating Funds Revenue

Total debenture debt charges are shown as a proportion of total net operating revenue in the Figure 3 series of charts following (pp. 190-196). Debt charges represent the cost to service all debenture debt outstanding of each municipality for the current year. The height of the bar indicates how much of current year net operating funds revenue is used for debenture debt charges. Debenture debt charges exclude related municipal debt charges covered by Sewer and Water Facilities Assistance Grants. Net operating revenue also excludes Sewer and Water Facilities Assistance Grants. The charts are graphed from Municipal Capital Tangible Assets and Related Debenture Debt (Sch 64, Col 19) on pages 166-168. Debenture debt charges (Sch 64, Col 17) are shown as a proportion of net operating revenue minus Facilities Assistance Grants (Sch 66, Col 14 on pages 170-172) less Sch 14, portion of Col 8 on pages 52-59 less Sch 18, portion of Col 8 on pages 60-67.

Chart Variable	Explanation	Sch Ref
Debt Charges	debenture debt charges includes interest on debenture/other long-term debt, principal installments, other debt charges from all operating funds	Sch 64,Col 17
Net Operating Funds Revenue	all operating funds revenue less utilities taxes and funding, transfers of taxes collected for other gov'ts, Sewer/Water Facilities Assistance Grants	Sch 66,Col 14 less Facilities Gr.
BC STATS Population	BC STATS population estimates issued Dec, 2001 (see black triangles)	Sch 64,Col 4
Peer Groups	municipalities were sorted by population into 7 peer groups	Schs 9p,10p

Accumulated surpluses, reserve accounts and reserve funds plus debenture debt charges are graphed on the same page. This permits fast visual inspection of both measures. Debt charges represent previous debt funding for capital expenditures. Surpluses and reserve accounts show funding that may be available for future expenditures. Reserve fund balances show funding available for future capital expenditures or other authorized purposes.

Figure 4 Sources of General Operating Revenue for 2001

Categories of general operating revenue are presented in a vertical bar representing total net operating revenue in the Figure 4 series of charts following (pp. 198-205). The size of general operating revenue (less taxes collected for other governments) for each municipality equals the height of its revenue bar. Graphical presentation provides a visual method of comparing the relative size of general revenue sources among similar municipalities. Proportions of taxation, own source, and grant revenues may be considered in evaluating municipal financing. These charts are graphed from Schedule 9p with each revenue category shown as a layer (see pp. 174-179).

Chart Variable	Explanation	Sch Ref
PrevSurplus	surplus from previous years, transfer from reserve accounts	Sch 9p, Cols 30,29
OtherFunds	transfers from other funds - reserve funds; sewer, water, other utility operating/capital funds; trust funds, general capital fund	Sch 9p, Col 27
Grants	unconditional transfers from provincial gov'ts, from other gov'ts conditional transfers from federal gov't/agencies, provincial gov't/agencies, and regional and other local gov'ts	Sch 9p, Cols 21,22 Cols 23,24,25 Col 26
OwnSources	revenues from own sources - licences and permits, fines, rentals/concessions/franchises, other (return on investments, tax penalties)	Sch 9p, Cols 17,18 Cols 19,20
SalesServices	sales of services - general gov't, protective, transportation, garbage, other environmental health, public health, environmental dev't, rec/cultural, other	Sch 9p, Col 16
ServOthGov'ts	services (e.g., recreational) provided federal, provincial, regional/local gov'ts	Sch 9p, Col 13,14,15
Taxes/GIL	taxes - real property, special assessments (frontage/parcel), business, other grants-in-lieu of taxes from federal, provincial, other gov'ts and agencies	Sch 9p, Cols 5,6,7,8 Cols10,11,12

Figure 5 Types of General Operating Expenditure for 2001

Categories of general operating expenditures are presented in a vertical bar representing total net operating expenditure in the Figure 5 series of charts following (pp. 198-205). The size of general operating expenditure (less transfer of taxes levied for other governments less surplus and transfer to reserve accounts for each municipality) is the height of its revenue bar. Factors such as density, settlement patterns, geography, and service preferences affect municipal expenditures. Evaluating the relative size of general expenditure types among municipalities of a population range may assist in the selection of comparables. These charts are graphed from Schedule 10p, with each expenditure category shown as a layer (see pp. 180-185).

Chart Variable	Explanation	Sch Ref
OwnFunds/RD	transfers to general capital fund, reserve funds (not to reserve accounts) other funds (utility capital funds, trust funds) and utility operating funds, uncond. transfers to regional/other gov'ts, cond. transfers to regional districts, and other fiscal services	Sch 10p, Cols 23,24 Col 25 Col 26,27 Col 28
DebtCharges	interest on temporary borrowing, interest on debenture/long-term debt, principal installments/sinking fund, other debt charges	Sch 10p, Cols18,19 Cols 20,21
Rec'n'Culture	recreation facilities, cultural buildings, other recreational/cultural services	Sch 10p, Col 17
Environment	environmental health - garbage/waste collection and disposal, other public health, social welfare, environmental development services	Sch 10p, Cols 12,13 Cols 14,15,16
Transportation	workshops/yards/buildings; road admin, engineering, roads and streets; municipal airports and services; water transport; other transportation	Sch 10p, Col 11
Protective	police protection, law enforcement, corrections, fire protection, emergency measures and other protection	Sch 10p, Col 8 Cols 9,10
Gen'lGov't	legislative (council stipends and expenses), general administration, other	Sch 10p, Cols 5,6,7
BCStats Pop'n	BC STATS population estimates issued Dec, 2001 (see black triangles)	Sch 10p, Col 4
Peer Groups	municipalities were sorted by population into 7 peer groups	Sch 10p

Categories of general operating revenue and expenditures are presented on the same page so that both can be evaluated visually in a population peer group.
